FOR IMMEDIATE RELEASE

## **SCRAM Systems Announces SCRAM GPS® 9 Plus is now FirstNet Trusted™ Device, Enhancing Public Safety with Priority Access**

Dec 12, 2024, DENVER, Colo – [SCRAM Systems](#)®, a leading provider of innovative monitoring solutions for public safety agencies, is proud to announce that the SCRAM GPS® 9 Plus device is now connected with [FirstNet®](#), [Built with AT&T](#). The SCRAM GPS® 9 Plus, which is now FirstNet Trusted™, delivers a highly secure solution to further public safety capabilities and strengthen electronic monitoring communications.

This integration enables SCRAM GPS® 9 Plus to communicate seamlessly with FirstNet, a network exclusively for first responders, providing public safety professionals with enhanced, reliable communication capabilities during times of high traffic and crisis.

The FirstNet Embedded IoT Program, which SCRAM GPS® 9 Plus now joins, works with trusted tech companies that lead the industry with public safety solutions. By integrating FirstNet service into mission critical products – such as police body cameras, wireless routers, wearable devices, and sensors –communications are streamlined into a unified product.

### **What FirstNet Certification Means for SCRAM GPS® 9 Plus and Public Safety**

The SCRAM GPS® 9 Plus bracelet is a state-of-the-art location monitoring solution that now benefits from the unique priority features of FirstNet, making it an essential tool for public safety agencies across corrections, courts, and law enforcement. This invaluable integration will provide both priority service during emergencies and extended coverage and connectivity to the agencies SCRAM Systems services every day.

### **Why FirstNet and SCRAM GPS® 9 Plus Matter**

FirstNet was built with and for first responders to help ensure that critical communications are prioritized when it matters the most. With the SCRAM GPS® 9 Plus now being FirstNet Trusted™, public safety professionals gain a powerful tool that strengthens their ability to supervise, monitor, and protect their communities.

“At SCRAM Systems, our mission is to empower public safety agencies with tools that support and enhance community safety,” said Marcel Guajardo, Vice President, Product Management at SCRAM Systems. “By becoming FirstNet Trusted™, SCRAM GPS® 9 Plus is positioned to provide public safety agencies with superior monitoring that operates with the highest standards of reliability.”
